# DISTRICT PROJECTS (2019-2020)

## MEMBERSHIP (KNOW YOUR CLUB)

It is the responsibility of every club president to register their club members name in the provided KYC link.

## KALAM KANAVU:

We are going to conduct an educational program in the concept of how to develop our educational system & sports category

## FOUNDATION (TENTATIVE):

We are going to choose any one of the project of RILM. Fund will be collected and given to TRF. So that they will return the grants amount, including the amount given by us for making our own project.

## DISEASE, PREVENTION & TREATMENT:

We are going to conduct mammogram screening or limb camp or eye camp, if they have any health issues. We take over the responsibility to treat them until they get cure.

## DHEIVATHIRUMAGAL 2.0:

We should do Community Service Project to Transgender People

Construct a toilet block for Transgender with the support of Sponsor Rotary Club.

## PEACE & CONFLICT PREVENTION / RESOLUTION:

We have decided to make peace symbol formation at Anna University with help of various Clubs in RID 3000.

## WATER & SANITATION:

Water purifier will be installed at some public places.

We are planning to place sanitary napkin burning machine and sanitary napkin vending machine at some public places

**CHILD ABUSE AWARENESS:**

Conducting the program at schools and identifying the child abused students to recover them.

**CAREER GUIDANCE:**

How to reach bank for start up, Job fair will be conducted andprograms on entrepreneurship development will be conducted for the passed out students from various colleges.

**ORGAN DONATION:**

Aware the people to donate their organs and collect forms to issue ID cards for them.

**BLOOD DONATION:**

The blood donor's details will be collected from the blood bot messenger 2.0 in the times of need.

Minimum 10000 donors should be updated in blood bot messenger.

**ADAVI 2.0:**

We should create a mini forest by using **Miyawaki concept** [It produces a Rich, Dense and Efficient Forest in a Short span of time if we properly applied this method quickly it produces a Multilayered Forest in 20 to 30 Years which will naturally take 200 Years to Grow].

**\*All the Clubs are requested to do all these Projects, you can do any projects at any month but Per Project for a Month as yours wish\***
